

Board of Trustees
Village of Black River, New York

Agenda
Regular Meeting
March 2, 2015

- Call to Order.
- Pledge of Allegiance.
- Approval of minutes of the 2/5/15 regular and 2/10/15 special meetings.
- Public Comment.
- Code Enforcement Report & review of related correspondence.
- Superintendent's Report.
- Clerk-Treasurer's Report.
- Police Department Report.

Correspondence Received:

A) Chris Vargulick

Re: Rt. 3 Sewer Board meeting minutes.

Correspondence Sent:

A) Doug Miller, Stebbins Engineering

Re: Subdivision review fees.

B) John Cook, Planning Board Chair

Re: Subdivision approval conditions.

Unfinished Business:

A) Update on Rt. 3 pump station project.

New Business:

A) FYI info on status water/wastewater system operators.

- Reports From Standing Committees.
- Reports From Special Meetings.
- Authorize payment of bills; adjournment.

Village of Black River
Board of Trustees
Special Meeting
February 10, 2015

A special meeting of the Village of Black River Board of Trustees was called to order by Mayor Leland Carpenter at 6:00 p.m. at the Karl J. Vebber Municipal Building.

Present:

Mayor Leland Carpenter
Trustee Dan Darroch
Trustee Corey Decillis
Trustee Francis Dishaw
Trustee Randolph Lake
Superintendent of Public Works Steven Lillie
Clerk-Treasurer Kathie Montigelli
Police Chief Steven Wood

Police Chief Wood asked the Board to consider changing the Village's NYS Police & Fire Retirement System plan. He said he is a full-time City of Watertown firefighter and the two other officers are full-time City of Watertown police officers. He said the Village's current plan does not allow the time worked in Black River/Evans Mills to be merged with the City's plan. He said the annual cost to the Village to change plans is estimated at \$1,400. Following discussion, it was the consensus of the Board that to continue with a plan that did not benefit the officers did not make sense. Mayor Carpenter said this will need to be discussed with the Village of Evans Mills Board of Trustees and that they will need to agree with this change and increased cost.

The Board then discuss the wage and salary schedules for employees and appointed and elected officials.

A motion was made by Trustee Dishaw, seconded by Trustee Decillis to adjourn the meeting at 6:40 p.m. The motion was carried.

Respectfully submitted,

Kathie B. Montigelli, CMC, CMFO
Clerk-Treasurer

Village of Black River
Board of Trustees
Regular Meeting
February 5, 2015

A regular meeting of the Village of Black River Board of Trustees was called to order by Mayor Leland Carpenter at 6:00 p.m. at the Karl J. Vebber Municipal Building.

Present:

Mayor Leland Carpenter
Trustee Dan Darroch
Trustee Corey Decillis
Trustee Randolph Lake
Superintendent of Public Works Steven Lillie
Police Chief Steven Wood
Code Enforcement Officer David Lachenauer
Clerk-Treasurer Kathie Montigelli

Absent:

Trustee Francis Dishaw

Mayor Carpenter led the Pledge of Allegiance.

A motion was made by Trustee Decillis, seconded by Trustee Lake to approve the minutes of the 1/5/15 regular meeting as submitted. The motion was carried.

Code Enforcement Report: CEO Lachenauer gave a verbal report and reviewed the plans for a subdivision being proposed by Stebbins Engineering on land located behind W. Remington St. He said Stebbins is proposing a thirty-nine lot subdivision, but will be asking Planning Board approval to initially develop thirteen. He said bonds should be secured for the infrastructure as well as tree replacement. He said he concurs with Planning Board Chair John Cook that the Village retain an engineer to review the plans on the Village's behalf. Clerk-Treasurer Montigelli said any engineering or legal fees incurred on the Village's behalf will be paid by the applicant.

A motion was made by Trustee Darroch, seconded by Trustee Lake to adopt the following resolution:

Resolved, that the firm of Dodson & Associate Consulting Engineers, PLLC, be hired to work on behalf of the Village of Black River to review plans for a subdivision being proposed by Stebbins Engineering on land located behind W. Remington St. The motion was put to a vote as follows:

Mayor Carpenter	Yes
Trustee Darroch	Yes
Trustee Decillis	Yes
Trustee Dishaw	Absent
Trustee Lake	Yes

The motion was carried and the resolution duly adopted.

Superintendent's Report: Superintendent Lillie reported the following:

- the status of a proposed additional Town of LeRay water district;
- he attended a Federal Emergency Management Agency (FEMA) meeting relating to the November 2014 snow storm;
- he met with Rt. 3 pump station project engineer Jack Dodson to review the project punch list; and
- Department of Public Works staff are completing electrical and painting work at the Rt. 3 pump station.

Mayor Carpenter said he would like to meet with project engineer Jack Dodson to review the project status and discuss any outstanding work to be done by the contractor. He said the contractor had asked to meet privately with the Board, but it was the consensus of the Board that it is important to meet first with Mr. Dodson to receive a project update, after which contractor representatives may be invited to participate in the meeting. It was decided to meet at 6:00 p.m. on Monday, February 23rd if Mr. Dodson is available at that time.

Clerk-Treasurer's Report: Clerk-Treasurer Montigelli she and Superintendent Lillie met with FEMA representatives to review the reimbursement process for the November 2014 snow emergency. She said she will be attending the New York State Conference of Mayors (NYCOM) Winter Legislative Meeting in Albany on February 10th as Secretary of the New York State Association of City & Village Clerks.

A budget meeting was scheduled for 6:00 p.m. on Tuesday, February 10th to discuss the wage and salary schedules for employees and elected and appointed officials.

Police Department Report: Chief Wood reviewed the written report with the Board.

Michael Montigelli, President of the Kamargo Housing Development Fund Company, Inc., the Village's senior housing complex, asked if a Village Board member would agree to serve on Kamargo's Board of Directors in order to maintain a connection between it and the Village. Trustee Darroch said he is willing to serve in this capacity. Mr. Montigelli, who is the District 5 Jefferson County Legislator, addressed questions from Mayor Carpenter and Trustee Lake regarding the County's implementation of a new County-wide radio communication system and single-source recycling at the County level.

Following discussion of whether the Village will comply with the voluntary "tax freeze" being proposed by Governor Cuomo, it was the consensus of the Board that this proposal is political in nature and is a short-term attempt to address the issue of property tax increases and will not, in the long-term, achieve the intended outcome.

Reports From Standing Committees: None.

Reports From Special Meetings: None.

A motion was made by Mayor Carpenter, seconded by Trustee Darroch, that the following resolution be adopted:

Resolved, that Michael R. Smith, Zachary A. Day and Andrew J. Coon be approved as members of the Black River Fire Department. The motion was put to a vote as follows:

Mayor Carpenter	Yes
Trustee Darroch	Yes
Trustee Decillis	Yes
Trustee Dishaw	Absent
Trustee Lake	Abstain

The motion was carried and the resolution duly adopted.

Mayor Carpenter said Lawrence Longway, Supervisor of the Town of Pamela, had asked him if the Village has the capacity to sell water to a Town of Pamela water district. Superintendent Lillie said he will review the request. Clerk-Treasurer Montigelli said she would recommend that the Board review water rates as part of the upcoming budget process.

A motion was made by Trustee Decillis, seconded by Trustee Darroch to adopt the following resolution:

Resolved, that the following abstracts of audited vouchers be approved: interim abstract dated 1/9/15 in the amount of \$5,915.06 (General Fund: \$4,017.98 Water Fund: \$1,709.59 Trust & Agency Fund: \$187.49); interim abstract dated 1/22/15 in the amount of 12,855.23 (General Fund: \$10,244.23 Sewer Fund: \$2,389.49 Trust & Agency Fund: \$221.51); interim abstract dated 1/29/15 in the amount of \$178.03 (General Fund: \$114.47 Water Fund: \$63.56); regular monthly abstract dated 2/2/15 in the amount of \$19,336.68 (General Fund: \$11,581.47 Water Fund: \$7,299.06 Sewer

Fund: \$456.15); interim abstract dated 2/5/15 in the amount of \$22,859.77 (General

Village Board
February 5, 2015
Page -3-

Fund: 2,009.46 Sewer Fund: \$20,689.28 Trust & Agency Fund: \$161.03). The motion was put to a vote as follows:

Mayor Carpenter	Yes
Trustee Darroch	Yes
Trustee Decillis	Yes
Trustee Dishaw	Absent
Trustee Lake	Yes

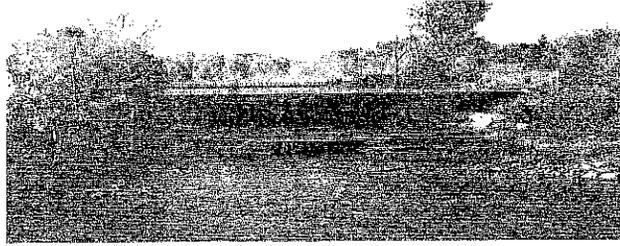

The motion was carried and the resolution duly adopted.

A motion was made by Trustee Lake, seconded by Mayor Carpenter to adjourn the meeting at 7:35 p.m. The motion was carried.

Respectfully submitted,

Kathie B. Montigelli, CMC, CMFO
Clerk-Treasurer

RE: Kamargo Apartments 214 LeRay Street, parcel number 75.00-2-3

Dear Mr. Brennan:

This letter is in reference to the above referred address and parcel number and your letter dated February 13, 2015.

By receipt of this letter I will inform you that at Kamargo Apartments 214 LeRay Street there are no outstanding building code or zoning code issues, or violations at this time.

If you should have any questions or concerns regarding this matter, please feel free to contact me at the Village Office.

Sincerely,

David M. Lachenauer
Code Enforcement Officer

CC: Mayor and Village Board of Trustees

TO: NYS ROUTE 3 CORRIDOR SEWER BOARD

FROM: Christina Vargulick, Secretary

DATE: February 10, 2015

RE: Minutes of February 9, 2015 meeting

Present: *Board members/voting representatives* – L. Carpenter, G. Eddy, T. Stewart and R. Taylor

Absent: T. Buckley and L. Longway

Others: K. Amyot, M. Capone, K. Dimmick, P. Pastella, and C. Vargulick

The NYS Route 3 Corridor Sewer/Development Board met in regular session on Monday, February 9, 2015 at the T/Champion Municipal Building. R. Taylor called the meeting to order at 4:35pm.

The Board reviewed the minutes for December 8, 2014. Motion by L. Carpenter, seconded by T. Stewart to approve the minutes as presented. Ayes-4, Nays-0. Motion carried.

Operating Report

P. Pastella reviewed the period summary for December 2014. Sewer flows were 6.4 MG. One hundred and one percent (101%) of the total budgeted revenues were received. Expenses year-to-date were one hundred and twelve percent (112%) of the total budgeted. Net cash of \$50,067.17 remained at the end of the period. The reserve account has a current balance of \$150,450.47.

A camera inspection of the service at 22319 Riverglade Estates was performed by a private contractor. No obstruction was observed but a sag in the line was found. Gleason Septic flushed the line and the sagging portion of the lateral will be brought up to grade in the spring. The homeowner incurred \$495.65 in expenses to temporarily alleviate the issue. Motion by L. Carpenter, seconded by T. Stewart to reimburse David Pooler/Charlene Fiske for the costs they incurred in an amount not to exceed \$495.65. Ayes-4, Nays-0. Motion carried.

P. Pastella reviewed the period summary for January 2015. Sewer flows were 7.7 MG. Members questioned the significant increase in the sewer flow. P. Pastella reported that she had just received the data and had not had an opportunity to analyze it. She was directed by the Board to prepare a report for the April meeting. Six percent (6%) of the total budgeted revenues were received. Expenses year-to-date were seventeen percent (17%) of the total budgeted. Net cash of \$16,752.00 remained at the end of the period. The reserve account has a current balance of \$150,482.84.

2/26/15

Village of Black River
Planning Board

West Remington Street Subdivision

Conditional Final Plat Approval

Final plat approval for the West Remington Subdivision shall be contingent on the following conditions:

With the exception of the requested tree clearing permit for Phase 1, no zoning or building permits for any structure or activity may be sought and no construction activities of any kind, including infrastructure construction, for the proposed development will be allowed to commence until all of the following items are completed:

- Any and all comments or questions submitted by the Village Engineer are resolved to the satisfaction of the Village.
- Acceptance of the plan, and submission and acceptance of materials for the infrastructure installations for the project by the Village DPW Superintendent, Village Engineer and the Village Planning Board.
- All applications and fees are completed and paid in full.
- The Developer enters into a Developer Agreement with the Village for all infrastructure improvements which will be dedicated to the Village.
- All required performance bonds are received and acceptable to the Village.
- All required permits and approvals from all involved agencies shall be in place.
- Ames Drive shall be maintained in an acceptable manner for all passenger vehicles during all aspects of the work for this development, as determined by the Village DPW Superintendent. This includes tree removal, infrastructure construction and any and all other activities.
- Any errors or omissions that may come to light or be identified after the Conditional Final Plat approval is granted shall be resolved to the satisfaction of the Village.
- The developer signs the certification below.

I certify that I understand and accept the above conditions as written and agree to comply with same as a condition of Final Plat approval.

363 Eastern Boulevard
Watertown, New York 13601

Re: Stebbins subdivision review fees.

Dear Mr. Miller:

I am writing to confirm with you that applications for major subdivisions, pursuant to the Village of Black River fee schedule, may be referred by the Village to an engineer and/or attorney for review. The applicant will be billed for the actual costs associated with review of the application. I have enclosed a copy of the fee schedule for your information.

Please free to contact me if you have questions or require additional information.

Thank you.

Sincerely,

Kathie B. Montigelli, CMC, CMFO
Clerk-Treasurer

VILLAGE OF BLACK RIVER FEE SCHEDULE

ARTICLE I. INTRODUCTION

The following RULES, REGULATIONS and FEE STRUCTURE associated with the Village of Black River Zoning Law and the Subdivision Control Law are hereby adopted by the Village Board of the Village of Black River on this 6th day of June, 1988, amended this 4th day of January, 1993.

ARTICLE II. FEES ASSOCIATED WITH SUBDIVISION CONTROL LAW

2.05 Application Fees: Application fees are to cover filing costs, public hearing costs, administrative costs, and overhead costs. Fees are as follows:

	<u>Sketch</u>	<u>Preliminary</u>	<u>Final</u>
Minor Subdivisions	none	none	\$25
Major Subdivisions	none	\$25 & \$10/lot	\$25

The final plat fee for major subdivisions may be waived by the Planning Board, if the Planning Board has also waived the final plat public hearing.

All fees to be paid to the Village Clerk during regular business hours.

2.10 Engineering & Legal Fees: Major subdivision applications may be referred to an engineer and/or attorney determined by the Planning Board on retainer for review when the Planning Board deems necessary. The applicant shall pay actual costs attributable to the engineer's and/or attorney's review of the application.

2.15 SEQR Fees: Pursuant to Section 617.17 of Part 617 "State Environmental Quality Review" (SEQR) of the New York State Consolidated Rules and Regulations (NYCRR) and Subdivision 8-0109.7 of the New York State Environmental Conservation Law (ECL), the Planning Board, acting as lead agency, shall charge a fee to the applicant to cover the actual costs of preparing or reviewing an environmental Impact Statement (EIS). The applicant shall not be charged for both the preparation and review of the EIS. If applicant prepares the EIS, the Planning Board shall charge applicant for the actual cost of the review. If applicant does not choose to prepare EIS, Planning Board shall charge applicant for the actual cost of preparing EIS.

2.20 Payment of Fees: The fee for preliminary application of minor subdivisions shall be paid prior to Planning Board endorsement of the preliminary plat. Application fees for preliminary plat approval of major subdivisions shall be paid prior to Planning Board endorsement of the preliminary plat. Application fees for final plat approval of major subdivisions shall be paid prior to Planning Board endorsement of the final plat. NOTE: If the application is denied, application fees and any engineering, legal or SEQR charges shall not be returned.

2.25 Inspections: See Article V.

ARTICLE III. FEES ASSOCIATED WITH ZONING LAW-SPECIAL PERMITS

3.05 Application Fees: An application for a preliminary site plan review requires a fee of \$10 for permits not requiring public hearings, and a fee of \$25 for permits requiring public hearings. Application fees are to cover filing costs, public hearing costs, administrative costs and overhead costs.

3.10 Engineering & Legal Fees: Site plans may be referred to an engineer and/or attorney, as determined by the Planning Board, on retainer for review when the Planning Board deems necessary. The applicant shall pay actual costs attributed to the engineer's and/or attorney's review of the application.

3.15 SEQR Fees: See Section 2.15

3.20 Payment of Fees: Application fees for preliminary site plan and estimated engineering and/or legal costs shall be paid prior to Planning Board endorsement of the preliminary site plan. The application fee for final site plan shall be paid prior to the Planning Board's endorsement of the final site plan. NOTE: If the application is denied, the application fees and any engineering, legal or SEQR charges shall not be returned.

3.25 Inspections: See Article V. 12/92

ARTICLE IV. FEES ASSOCIATED WITH ZONING ADMINISTRATION

4.05 Zoning Permits: Applications for zoning permits shall be accompanied by a \$10 fee. This fee will be waived, if a project requires both a zoning and building permit.

- 4.10 Interpretations: Applications for interpretations filed with the Zoning Board of Appeals shall be accompanied by a \$10 fee. This fee is to cover filing costs.
- 4.15 Variances: Applications for variances filed with the Zoning Board of Appeals shall be accompanied by a \$25 fee. This fee is to cover filing costs and public hearing costs.
- 4.20 Planned Developments: Applications for zone changes associated with Planned Development (PD) Districts shall be accompanied by a \$100 fee. This fee is to cover filing costs, public hearing costs, administrative costs, and overhead costs. PD District applications shall be subject to Article III of this resolution if PD status is conferred upon the application and special permit is applied for.
- 4.25 Engineering & Legal Fees: Applications for PD Districts may be referred to an engineer and/or attorney, as determined by the Planning Board, on retainer for review when Village Board deems necessary. The applicant shall pay actual costs attributed to the engineer's and or attorney's review of the application.

ARTICLE V. FEES FOR INSPECTIONS

- 5.05 Inspections: There will be a \$50 inspection fee for any permit or application review of PD District or subdivisions which require a site inspection by the Village Enforcement Officer or any other agent of the Village designated to do such inspections. Any fees for professional services deemed necessary by the Enforcement Officer shall be in addition to the inspection fee.
- 5.10 Payment of Fees: Inspection fees associated with permits and approvals for the Village Zoning Law shall be paid prior to the issuance of a certificate of occupancy by the Enforcement Officer. Inspection fees associated with Subdivision Control Law reviews shall be paid prior to final approval of the plat. 12/92

What's Coming and Are You Prepared?

By Patricia C Scalera, CEO for the New York Rural Water Association

Currently New York has approximately 2660 certified wastewater operators running approximately 610 municipal wastewater treatment plants across our state. There are also 285 private/commercial/institutional facilities treating sanitary wastewater with treatment systems that require a certified operator. These facilities will be in competition with municipal facilities to retain certified operators. Approximately one third of the operators obtained their initial certification prior to the regulation changes in 1994. By a best estimate, a third of those operators today are 50 years of age or older. It is safe to assume that a third or more of the operators currently certified will retire in the next five to ten years.

We have a growing concern with this issue due to a combination of operator retirement, difficulty in passing the national test for certification in this field, and the lack of interest from our youths in pursuing a career in the wastewater (and water) industry. We hope after you read this article you will have the same concerns.

One industry professional stated, "It will not take another 10 years for things to reach a crisis. Five years at the most. The operators will command very large salaries and be mobile. Can you imagine an operator in the north country worth \$100,000/year?" Are you prepared, are you thinking succession planning? If no, you should be. Your water and wastewater facilities are your biggest asset to your towns, villages and cities.

One small village in upstate New York just recently advertised to fill a position when their certified operator retired. The village ended up hiring a college graduate with some experience for \$20.00/hr., with no certifications. They now need to pay for the professional training school in hopes that this person will successfully pass the difficult national test for certification.

Combine this crisis with the issue confronting the municipalities to upgrade their treatment facilities to meet new permit requirements. The upgrades and new permit requirements raise the plant score of many facilities, resulting in a need for a higher grade chief and assistant operators. For example, the municipalities in the Chesapeake Bay drainage basin recently had phosphorus and total nitrogen limits added to their permits. These changes alone may increase the classification of many facilities from Grade 2 or 2A to Grade 3 or 3A. These municipalities will now need to obtain the services of a contractor to serve the role of Chief Operator until the current staff can become certified at the Grade 3 or 3A level. This will take 2 years, increasing the demand for Grade 3 or 3A operators. Are you prepared to pay higher wages for a professional operator? Have you considered that the current professional you have on staff may be

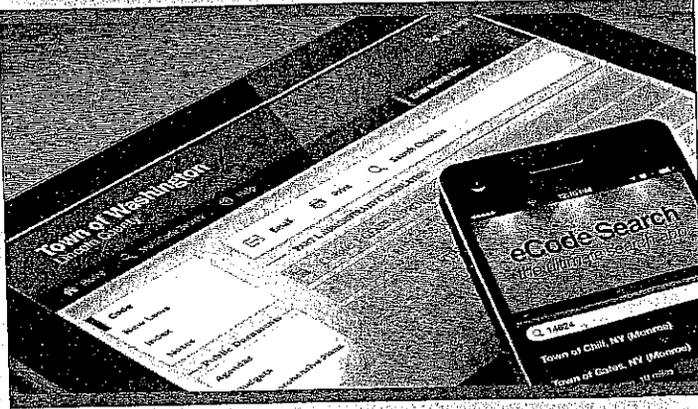

enticed by a neighboring facility who can offer more? If you aren't already thinking about this, you should be. There is going to be a competitive market for these certified professionals and as elected officials, you should be paying a fair wage and succession planning. Don't wait until the position is vacant and then look to backfill the position.

Pursuant to New York State regulations, 6NYCRR Part 650, the majority of the wastewater treatment plants are required to have a Chief and an Assistant/Shift Operator, so that they are appropriately staffed. Complicating the Part 650 requirements are the Civil Service requirements. Many municipalities have Civil Service requirements that all staff in an operator title must be certified at the plant grade level. This is the area where the biggest future need will occur. Many facilities want to hire currently certified operators to meet their Part 650 and Civil Service requirements. The reason is that it is expensive to train a new operator. For example, a Grade 2A operator must complete the 60 hour Basic Operation, 30 hour Basic Laboratory, and 24 hour Activated Sludge courses

(Rural Water - Continued on page 11)

Codification Division

(Rural Water - Continued from page 6)

before applying to take the Grade 2A ABC exam. This is four weeks of training that may not be available regionally and the operator in training will need to travel, increasing the costs of training to several thousand dollars.

Back in 2011, the Water Environmental Federation (WEF) hosted the Operator Certification and Training Summit with over 40 participants including representatives from EPA, National Rural Water Association, Association of State and Interstate Water Pollution Control Administrators, the Association of Boards of Certification and many others. They were asked to participate as individuals reflective of their expertise and broad understanding of operator needs and interests. Similar concerns were raised at this summit.

Finally, to summarize this article in short, the pool of certified operators is shrinking, are you prepared?

New York Rural Water Association will be hosting several workshops in the near future across our state on Sustainable Management of Rural and Small Systems/Sustainable Utility Management. We encourage all certified operators to sign up for this class and bring your clerks and elected officials to these sessions. You will participate in a self-evaluation of your system and discuss the ten key management areas including product quality, customer satisfaction, employee & leadership development, operational optimization, financial viability, infrastructure stability, operational resiliency, community sustainability & economic development, water resource adequacy, and finally, stakeholder understanding and support. Under the management area of Employee and Leadership Development, we will cover the system recruiting and retaining a workforce that is competent, motivated, and safe-working. Discussion will cover opportunities for employee skill development and career enhancement, training programs in place and available to retain and improve their technical knowledge, as well as, job descriptions and performance expectations, etc. Our first session was held in Coxsackie this past August and those present were glad they had participated and strongly agreed the information and exercises were very beneficial to them. When asked what did they like best about the workshop - many replied being able to hear what other municipalities had in common, the open discussions on putting priorities in order in moving forward with asset management planning.

In addition to the workshops, the Water and Wastewater Education and Outreach Committee, a partnership of public and private organizations formed to protect public health and the environment by ensuring that water and wastewater systems in New York State are operated and maintained to be viable and self-sustaining, have de-

veloped two brochures that may be of use to you. "The Value of Water - What's it worth to you and your community?" and the "Environmental Careers - Water & Wastewater Operators" are both available for download at <http://efc.syracusecoe.org/WWEOC>. The career brochure was developed to encourage individuals to consider careers in the water and wastewater industry and have been distributed to high school guidance offices, unemployment offices, and job fairs. Also we encourage others to attend career days at their local high schools and distribute the brochure. The Value of Water brochure is to help educate the public on the importance of water and wastewater services. Be sure to check out these tools available to you.

Next time, we will discuss Asset Management Plans, which is just around the corner. If you are going to be applying for any financial assistance from our funding agencies, you will need to be prepared.

Much of this background information was provided by Robert Wither, P.E., Section Chief, Compliance Information Section, Bureau of Water Compliance for the NYS Department of Environmental Conservation.
